Product highlights

Plug & Play pack - 4 handsets

A convenient Plug & Play DECT-phone package including a base and 4 handsets.

Babysit function

Worried about your baby not sleeping? No need to constantly go and check in his bedroom. The baby-sit mode allows you to keep an ear listening wherever you are in the house.

Free intercom

No need to stop what you are doing and go to give the handset to your son when his friend calls: you can freely and easily call the handset in his bedroom and transfer the call.

Digital answering machine

With a digital answering machine, you'll never miss a call or message.

15-minute recording time

Illuminated message-counter

Just look at the base station to instantly know whether you have received any messages.

SIM-card copying facility

With the SIM-card copying facility, you can transfer your whole mobile-phonebook on to your home telephone in a matter of seconds.

Keep in touch by SMS texting

The SMS is a simple way to exchange information over the telephone line. You first type your text off-line and when you are ready, send it to as many people as you like.

Caller name and number display.

The name of the person or company calling is shown on the telephone display. The names of first-time callers can be displayed as well as those which are programmed into the telephone beforehand.

Speakerphone - Talk handsfree

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or take notes during a call.

Backlit display & keypad

Backlit display & keypad ensures easy viewing and operation in low light conditions
